

Cloudy Sky Tutorial Acrylic Paints

Each time I start a new oil painting, I use acrylic paints for underpainting or blocking-in the initial layer of colour to the painting. Acrylic paints allow me to move onto the oil layers more promptly. I use Winsor and Newton's professional range of acrylic paints in a palette of twenty-one tones.

Some of the tones that I have previously used may no longer be available at Winsor and Newton, however, you can find similar alternatives.

Titanium White

Dioxazine Purple

Cerulean Blue

Cadmium Yellow

Cobalt Blue

Burnt Umber

Cloudy Sky Tutorial Oil Paints

I use Winsor and Newton Griffin Alkyds after the “block in” layer- they dry much more quickly and this means a painting can be completed in a single session. They have a slightly greater level of transparency for increased depth and clarity when glazing. *Some of the tones that I have previously used may no longer be available at Winsor and Newton, however, you can find similar alternatives.*

Titanium White

Dioxazine Purple

Cerulean Blue

Cadmium Yellow
Light

French Ultramarine
